

LAPTOP POLICY

The laptops available for check out from Thorndike Library are primarily for enrolled student use as a supplement to the computers available in the Neva Goodwin Computer lab and the library computer lab.

Two laptops [Dell Inspiron nb01808 and Dell Inspiron nb01809] are available for in-library use only, with the exception of class presentations (not preparation). The loan period is four hours.

Laptops for in-library or out-of-library use with a 24 hour loan period are available (with extended use possible if approved by library staff). These include a Mac iBook G4 and Dell Netbooks.

The library staff may also judge it appropriate to allow extended use by other college community members depending on timing, intended use, academic need and duration of use. All laptop borrowers must review and sign the Laptop User Agreement before borrowing laptops. The Laptop User Agreement is valid for an academic year.
